10. Number of IQAC meetings held during the year :

3

The minutes of IQAC meeting and compliances to the decisions have been uploaded on the institutional website	Yes
Upload the minutes of meeting and action taken report	View File
11. Whether IQAC received funding from any of the funding agency to support its activities during the year?	No
12. Significant contributions made by IQAC during the current year(maximum five bullets)	
Quality Assurance: Applied for NAAC accreditation and secured A grade with a score of 3.17	
Teaching Learning Practices: Implemented Edmodo as Learning Management System for creation of E-Classrooms, sharing lecture notes and monitoring student performance through online assignments and quizzes	
Professional Development: 1. Conducted workshops and training programmes for students and staff in emerging trends such as Internet of Things, Python Programming, Robotics, Bridge Design and Fabrication, etc. 2. Encouraged students and staff to register for online certification courses through NPTEL and many students and faculty members have received Certifications with Gold or Elite or Top 1 percent. The institution also received Best Rating Point Improvement Award from NPTEL for the local chapter. 3. Reached MoUs with industries in order to aid professional development of students by improving industry institute interaction 4. Encouraged students to take up summer internships and around 260 students have completed internships during the year 5. Incubated three startups in ATRIS incubation centre	
Examination Reforms: Implemented Blooms Taxonomy in conduct of all Internal Examinations	
Research and Development and Extension Services: 1. Established a Centre of Excellence in Data Science and Big Data Analytics in association with Dell EMC 2. Established an Institution Innovation Council (IIC) as per the norms of Innovation Cell, MHRD 3. Encouraged faculty towards publication of patents and three faculty members have successfully published patents 4. Applied for Unnat Bharath Abhiyaan and secured funding and have conducted extension activities in five of our adopted villages	
No Files Uploaded !!!	
13. Plan of action chalked out by the IQAC in the beginning of the academic year towards Quality Enhancement and outcome achieved by the end of the academic year	
Plan of Action	Achievements/Outcomes
Implementation of Blooms Taxonomy in the conduct of internal examinations	All internal examinations were conducted by preparing question papers

for improving the quality of evaluation in coordination with Exams Cell	using Blooms Taxonomy and resulted in the improvement of quality in question paper setting and evaluation
Setting up of Centre of Excellence in Data Science and Big Data Analytics to train students and faculty and secure certifications	Four faculty from the institution have secured certifications in Data Science and Big Data Analytics from Dell EMC who have in turn trained around hundred final year students of the institution. As a result students have developed thirty three major projects in the area of Data Science and Big Data Analytics
Encourage senior faculty to publish patents through initiatives from R&D Cell	Two patents were published by three faculty members
Implementation of Campus Surveillance System to improve safety and security to students and staff	Established CCTV IP Surveillance System to cover all corridors and rooms thereby improving safety on campus to students and staff
Improve student placements through CRT and Career Guidance Programmes	Conducted CRT and Career Guidance Programmes for final year students and fifty five percentage of students got placed on/off campus
Encourage students to participate in Professional Development through Certification Courses	Most of the students from the institution have enrolled for NPTEL certification courses through SWAYAM and have secured Gold, Elite, Topper certifications
To reach MoUs with industries to improve industry institute interaction	Reached MoUs with fourteen industries during the year resulting in a large number of linkages in terms of internships and projects
Prepare for NAAC peer team visit and adopt measures to ensure that the institution is accredited with top grade	The institution was accredited with NAAC A Grade in September

14. Whether AQAR was placed before statutory body ?	Yes
--	-----

Name of Statutory Body	Meeting Date
Board of Management	30-Nov-2019

15. Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to assess the functioning ?	Yes
--	-----

Date of Visit	03-Sep-2018
---------------	-------------

16. Whether institutional data submitted to AISHE:	Yes

Year of Submission	2019
Date of Submission	25-Feb-2019
17. Does the Institution have Management Information System ?	Yes
If yes, give a brief description and a list of modules currently operational (maximum 500 words)	<p>The institution has implemented Gibbon as Management Information System which is an open source web based software for educational institutions. The software is student centred and teacher led, providing unified platform for teachers, students, parents and administrators. The following modules of Gibbon were introduced during this academic year: PLANNER: Planner is used for preparing lesson plans, mapping units with course outcomes, giving assignments and collecting them online, grading assignments, and taking class attendance. TIMETABLES: This module displays individual timetables of all faculty with room numbers and can be linked to google calendars. ACTIVITIES: This module is used to create activities and allow students and parents to view and register online. The module also generates list of participants for each activity. STUDENTS: Students module is used to record student profiles and provide very quick access to faculty to search and find student profiles using Fast Student Finder. STAFF: The staff profiles are recorded using this module and also provides features for receiving applications for vacant posts. The details of staff can be selectively made available to parents, HR and payroll. ATTENDANCE: Attendance module is used to record attendance of students online and access their recent or full history of attendance to establish patterns of absence. Parents can also access attendance details of their wards for close monitoring. ASSESSMENTS: This module helps faculty to record internal and external marks of students for future access and aids in assessing the performance of students. MESSENGER: Messenger module helps faculty and administrative staff to send messages to various groups of users, such as faculty, students and parents. Supported message formats</p>

include email, SMS and Message Wall. The message wall is used to produce an individualised, live daily bulletin of announcements. ADMINISTRATION: The administration module has different user groups such as school admin, system admin, user admin and timetable admin in order to control various aspects of the management information system.

Part B

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

The institution follows the curriculum prescribed by JNTUH for all the courses offered. To ensure effective curriculum delivery, the institution follows the process given below: - The curriculum analysis committee of the institution having heads of the departments and other senior professors as members analyses the curriculum based on the industry requirements, syllabus of the competitive examinations and curriculum of other universities, and identifies various gaps. - The committee also proposes various measures to cover the gaps, which include bridge courses, adjunct courses, add-on courses, etc. and submits recommendations to the Governing Council. - The Governing Council conducts a meeting and approves the recommendations put forth by the committee on a case by case basis and permits the institution to implement the suggestions. - The institution then incorporates the measures into the academic calendar and prepares institution calendar without any deviation from the academic calendar prescribed by the affiliating university. - The institution ensures effective implementation of its calendar through a well-planned and documented process given below: - Before the beginning of the semester, preference of the subjects willing to be taught by the faculty members is collected in a fixed format. - Subject allocation is done based on the preferences given and workload allocation for each department is finalised after taking approval from the Principal. - Each faculty member shall prepare the following for each allotted subject: Course prerequisites, Course outcomes, Session plan, Assignment questions, Question bank - Session plans are also prepared for lab subjects, projects, and ITL methods. - A handbook is prepared with the above information for all subjects, including a calendar, academic rules and regulations, and other relevant information for each section of students and is shared with them. - Faculty members prepare course files which are shared with the students. - Based on the workload allocation, timetables are prepared by the timetables preparation committee with members from all the departments and are approved by the Principal. - Based on the gaps identified, more number of hours are allotted to certain subjects than that prescribed by the affiliating University. - Faculty members are ensured to follow the session plans strictly by collecting weekly syllabus completion status reports and are provided with extra classes in case of additional requirement. - Adherence to syllabus completion as per session plans is also monitored through attendance registers where faculty members write the topics covered in each lecture. - Class teacher meetings are conducted periodically to identify weak students and conduct remedial classes. - Feedback from students is obtained twice in a semester for each course on various aspects of teaching learning process. - Internal exams for theory and practical subjects are conducted as per schedule from the

affiliating university. - Contents beyond the syllabus are taught through guest lectures by experts from the industry, industrial visits and e-learning. - In laboratory subjects, additional experiments are added to cover contents beyond the syllabus. - Periodic meetings are conducted by the principal with HoDs to review timely completion of syllabus.

1.1.2 – Certificate/ Diploma Courses introduced during the academic year

Certificate	Diploma Courses	Dates of Introduction	Duration	Focus on employability/entrepreneurship	Skill Development
One Week Training Program on Geographical Information System by CE Department	NIL	23/07/2018	6	Employability	Students able to solve different field problems related to mapping, traffic simulation, spatial data analysis and solution convergence through GIS.
Two day Workshop on Bridge Design and Fabrication by CE Department	NIL	02/11/2018	2	Employability	Students able to design and prepare prototype bridge model by using SAP software under various load combinations and load bearing capacity.
Training Program on Central Air Conditioning by ME Department	NIL	18/09/2018	1	Employability and Entrepreneurship	Students have gained sound knowledge of engineering fundamentals, Learnt how to troubleshoot equipments to solve problems
Training Program on CATIA by ME Department	NIL	25/09/2018	1	Employability	Learnt modeling and analysis on 3D components

Two day Workshop on Advanced Manufacturing Systems by ME Department	NIL	01/11/2018	2	Employability	Students gained knowledge on new innovative technologies in both products and processes.
One day Workshop on Advanced IC Engines by ME Department	NIL	03/11/2018	1	Employability	Students learnt to design parameters like fuel air mixtures and cycle analysis Students learnt about modern concepts like Lean burn, HCCI, GDI.
Short Term Training Program on Solid Works by ME Department	NIL	06/02/2019	7	Employability	Gained Software Knowledge and tools usage, Use software to design with industry and government standards
Two day Workshop on HVAC by ME Department	NIL	07/03/2019	2	Employability and Entrepreneurship	Students gained through knowledge of HVAC systems Methods and learnt the diagnostic testing skills
Two day Workshop on "Robotics using Arduino " by ECE Department	NIL	27/09/2018	2	Employability	Constructing the Robot using Arduino Board and interfacing different sensors
Two day Workshop on "Python Programming	NIL	07/02/2019	2	Employability	Python programming and Hardware interfacing

using Raspberry Pi and its applications " by ECE Department					with Raspberry Pi
Short Term Training Program on " Embedded System Design " by ECE Department	NIL	05/02/2019	12	Employability and Entrepreneurship	Embedded System Application using different controllers like Aurduino / Raspberry Pi
Short Term Training Program on "VLSI System Design " by ECE Department	NIL	05/02/2019	12	Employability	Developing various VLSI algorithms using Verilog programming
Three Day Workshop on Internet Of Things by CSE Department	NIL	31/07/2018	3	Employability	IOT technician ,home automation
Three day Workshop on Cyber Security by CSE Department	NIL	23/01/2019	3	Employability	Cyber security engineers ,security operation analyst
Three day Workshop on Android Application Development by CSE Department	NIL	31/01/2019	3	Employability	Android developer ,android app designer
Short Term Training Program on Java by CSE Department	NIL	07/03/2019	16	Employability	Dynamic web application development
Short Term Training Program on IOT by CSE Department	NIL	07/03/2019	16	Employability and Entrepreneurship	IOT technician ,home automation
Short Term Training Program on PHP by CSE	NIL	07/03/2019	16	Employability	Web application development

Department						
Short Term Training Program on Python by CSE Department	NIL	07/03/2019	16	Employability	Mobile app development, module development	
Three Day Workshop on Internet Of Things by IT Department	NIL	31/07/2018	3	Employability	IOT technician, home automation	
Three day Workshop on Cyber Security by IT Department	NIL	23/01/2019	3	Employability	Cyber security engineers, security operation analyst	
Three day Workshop on Android Application Development by IT Department	NIL	31/01/2019	3	Employability and Entrepreneurship	Android developer ,android app designer	
Short Term Training Program on IOT by IT Department	NIL	07/03/2019	16	Employability	IOT technician, home automation	
Short Term Training Program on Python by IT Department	NIL	07/03/2019	16	Employability	Mobile App Development, Module Development	
Two Day Workshop on Electrical CAD for EEE by EEE Department	NIL	27/09/2018	2	Employability	CAD is the Source for Electrical Drawing

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained
<p>The institute has a performance appraisal system which involves collection of online feedback from all stakeholders such as students, teachers, employers, alumni and parents. The data is collated, analysed and utilised for student performance, faculty improvement, infrastructural development and quality enhancement. FEEDBACK FROM STUDENTS Student feedback is taken for quality improvement and pertains to curriculum analysis, teaching learning process, infrastructural facilities, holistic development, exposure to industry, research and development facilities, technology-enhanced learning, opportunities for extension activities, and so on. Students also provide feedback on the faculty on various parameters which forms one of the major parameters in deciding increments and promotions and Teaching Excellence and Outstanding Contribution awards. FEEDBACK FROM TEACHERS Teachers feedback is taken to assess curriculum, effectiveness of teaching methodologies, implementation of learning management systems and e learning, laboratory infrastructure, student performance and mentoring, potential areas for FDPs and workshops, and subscription to journals and research and development In addition, teachers also submit a self appraisal form that is crucial in evaluating their performance in terms of feedback, participation in conferences and workshops, publications and their contribution to academic and</p>

administrative activities. **FEEDBACK FROM EMPLOYERS** Feedback from employers is given a lot of weightage as the employers from the industry can give an accurate assessment of the student's competence levels in perspective of the job requirements. Company representatives visiting the institute during the Placement Drive or to conduct workshops and seminars are provided an online feedback form to evaluate students, resources and facilities. They are asked to give an appraisal based on the student's ability to contribute to the goals of the organization, technical knowledge and skills, innovativeness and creativity, communication and interpersonal skills, aptitude and overall performance. Any area requiring improvement is received as constructive criticism. The Aurora Group of Institutions also organizes an annual event, Abhidheya, which has the objective of felicitating employers and providing an industry-institute interface. Valuable inputs from the senior officials attending this programme are used to bridge the gap between the academic and corporate world and also address issues like infrastructural development and knowledge updation and skill enhancement among students. **FEEDBACK FROM ALUMNI** The institute conducts an Alumni survey every year and alumni meet every semester during which suggestions and feedback from alumni are recorded, analysed for their feasibility and implemented. Alumni feedback based on their institute experience and industry exposure is utilized to fill any lacunae regarding curriculum development, teaching learning methodologies, institute industry interface, placement training, skill enhancement and technical upgradation. Apart from regular Alumni meets, the alumni are also invited to be part of college events to interact with students, faculty and Management, and give suggestions. **FEEDBACK FROM PARENTS** ATRI conducts regular Parent Teacher meetings, not only to apprise students of their ward's performance, but also to draw suggestions on the teaching learning process, infrastructural facilities, holistic development of the student, placement training and so on. Parents also voice their concerns regarding issues that need improvement and remedial measures are taken.

CRITERION II – TEACHING- LEARNING AND EVALUATION

2.1 – Student Enrolment and Profile

2.1.1 – Demand Ratio during the year

Name of the Programme	Programme Specialization	Number of seats available	Number of Application received	Students Enrolled
BTech	Civil Engineering	120	68	68
BTech	Computer Science Engineering	240	232	232
BTech	Electronics and Communication Engineering	240	187	187
BTech	Electrical and Electronics Engineering	120	41	41

2.2 – Catering to Student Diversity

2.2.1 – Student - Full time teacher ratio (current year data)

Year	Number of students enrolled in the institution (UG)	Number of students enrolled in the institution (PG)	Number of fulltime teachers available in the institution teaching only UG courses	Number of fulltime teachers available in the institution teaching only PG courses	Number of teachers teaching both UG and PG courses
2018	1820	0	172	0	172

2.3 – Teaching - Learning Process

2.3.1 – Percentage of teachers using ICT for effective teaching with Learning Management Systems (LMS), E-learning resources etc. (current year data)

Number of Teachers on Roll	Number of teachers using ICT (LMS, e-Resources)	ICT Tools and resources available	Number of ICT enabled Classrooms	Number of smart classrooms	E-resources and techniques used
172	172	14	40	1	11

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The institution has a vibrant Student Mentoring and Performance Monitoring Committee. The mentoring system is followed strictly as per the AICTE mandate where a batch of 20 students are assigned to one faculty mentor. They monitor and counsel the students regarding academic, career and personal issues. The primary objective of mentoring is to build self esteem in students and bring about a behavioural change whereby they realise their potential and achieve their goals. Every year in August an Induction programme is organised for the freshers. As part of this, a Mentor Mentee connect was conducted with faculty mentors and senior students as peer mentors. They worked together and mentees gave performances in the form of Skits, PPTs, Posters, Tech talks, Paper craft, Song and Dance. Mentoring hours are allocated on the timetable for each class. Mentees can approach their mentors any time in addition to these slots. Individual mentoring files are maintained for each student containing four formats which are very comprehensive in nature. 1. Student Data Sheet comprises of the personal details of the student including Aadhar number, PH status, contact numbers and photos of the student and his/her parents. 2. In the Student Mentoring Form, the attendance and performance in examinations is recorded throughout each and every semester. There is also a provision to record the analysis of the mentee by the mentor in terms of discipline, appearance, involvement in classroom and interaction with peers. A minimum of four interactions are necessary in every semester. Parents are intimated about the attendance and academic performance over phone. Parent Teacher Meetings are conducted once every month to apprise them about their wards. 3. Achievements of the students in cocurricular and extracurricular activities are recorded in the Student Achievement Form to identify the talents in students and give impetus to their holistic development. Mentor encourages the mentees to participate in various activities conducted in the college. 4. Periodic interaction with the parents, once every month is noted down in the Parent Interaction Form along with the remarks by the mentor. The coordinator of the Mentoring committee along with the HoDs and the Director conducts periodical reviews with the mentors to check the status. Students from rural background are given special attention and assistance till they mingle with the other students without any cultural and language related barriers. Girl students can also seek assistance from the Women Empowerment Cell in addition to their mentors, as and when necessary. Interaction with mentees is recorded and maintained in the file. Mentors also document their mentoring success stories, create a database and share it with other colleagues. A Workshop on 'Understanding Mentorship Challenges' was conducted in October 2018 to update mentors about the innovative perspectives in student mentoring. Teaching and mentoring go hand in hand. Mentors can interact with the class teachers and subject teachers of their mentees to coordinate and solve any issues related to academics. Services of a Psychologist/Counselor are available on campus for students with special needs.

Number of students enrolled in the institution	Number of fulltime teachers	Mentor : Mentee Ratio
1820	172	1:11

2.4 – Teacher Profile and Quality

2.4.1 – Number of full time teachers appointed during the year

No. of sanctioned positions	No. of filled positions	Vacant positions	Positions filled during the current year	No. of faculty with Ph.D
172	165	7	7	19

2.4.2 – Honours and recognition received by teachers (received awards, recognition, fellowships at State, National, International level from Government, recognised bodies during the year)

Year of Award	Name of full time teachers receiving awards from state level, national level, international level	Designation	Name of the award, fellowship, received from Government or recognized bodies
2019	D. Subhashini	Associate Professor	Elite Gold Top1 in NPTEL at National Level
2019	Dr. S Jayasrinivasa Rao	Professor	Elite Gold Top1 in NPTEL at National Level

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The institution has implemented Bloom's Taxonomy to aid Outcome Based Education in planning and delivery of instruction and conducting assessments across all the subjects and courses during this academic year in the following way: A workshop on Bloom's Taxonomy was conducted for all faculty and they were trained on setting question papers using Bloom's Taxonomy. Students were apprised of the Bloom's Taxonomy and its relevance to the syllabus and assessments. Internal exam question papers for all years of students were prepared according to the Bloom's Taxonomy levels and course outcomes were linked to them bringing a balance among different levels of cognitive questions and reducing the scope of terming a question paper as tough or easy. Bloom's taxonomy also facilitated preparation of different types of questions for each lesson/unit and resulted in consistency across all modules, appropriate coverage of syllabus and design of valid assessment tasks and strategies. Question banks are prepared for each course indicating the levels of Bloom's Taxonomy for understanding of the students.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The academic calendar of the institution is prepared in accordance with the academic schedule prescribed by JNTUH for affiliated institutions. The calendar provides details on date of commencement of classes, number of working days, holidays and proposed dates of internal and external examinations, and college level and department level functions/activities. The academic calendar is shared with all the faculty, staff and students before the academic session begins. The academic calendar is used to adhere to the following activities on campus: Induction programme is organised for two weeks for first year students at the beginning of the academic year. The classwork for each semester strictly commences and ends as per the academic calendar. Mid term examinations are conducted twice every semester as per the schedule. Parent teacher meetings are conducted once every semester for each year of students. Preparation holidays, Dussehra vacation and summer vacation are declared as per the schedule. Practical examinations are conducted once every semester. Submission of marks to the university is also scheduled in the academic calendar and strictly adhered to. End semester and supplementary examinations are conducted by the university as per the dates identified in the academic calendar. All the extra and cocurricular activities are scheduled based on the calendars submitted by the respective departments, centres, clubs, cells and committees.

2.6 – Student Performance and Learning Outcomes

2.6.1 – Program outcomes, program specific outcomes and course outcomes for all programs offered by the institution are stated and displayed in website of the institution (to provide the weblink)

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

Students' Council (Students Activity Committee) The institution has an active Students' Council, which is reconstituted every year. The Student Council comprises of a nominated senior faculty member as the faculty coordinator, the Student President, the Student Secretary and the Student office bearers. Students from II and IV years are selected by a team of senior faculty members based on good academic, non academic, communication competencies coupled with good conduct. The main purpose of constituting Students' council is to create a perfect link between the students and the management, the students and the faculty, the students and the community and among the students themselves. The students' council acts as a liaison between the management and the students facilitating the smooth functioning of the institution and to the satisfaction of the student community The students' council activities include:

1. Dissemination of information regarding competitions, meetings, festivals, ecto the students.
2. Organising technical fests, Sports events, cultural activities, festivals by coordinating with various clubs of the college.
3. Celebrating the days of National and International Importance in coordination

with all the departments and clubs. 4. Playing the morning prayer and National anthem at the end of the day, announce information and current news by coordinating with the ATRI FM. This instills the human values, patriotism and enables to update latest information. The students' council organises Self governance day on Teacher's Day every year. On this day senior students teach the junior students dressed up as teachers. Students assume the roles of the Principal, Heads of the departments, faculty members and function individually according to their designation. This practice inculcates the leadership qualities, work commitment and team work. Representation of students in Academic and Administrative Committees: The students play a vital role in almost all the academic and administrative bodies of the institution. These bodies create more avenues for students to develop technical skill, updating knowledge on the state of the art subjects, personality development and service to society through various Bodies/Committees/Cells. There are staff coordinators to guide students in the smooth and efficient conduct of these activities. The following is the list of committees on which students are members: 1.NSS Cell 2.Grievance Redressal Cell 3.Public Relations Committee 4.Publications Committee 5.Women Empowerment Cell 6.Photography Club 7.Internal Complaints Committee 8.Student Discipline Committee 9.Library Committee 10.AntiRagging Committee 11.Cultural Club 12.Website Committee 13.Nature Club 14.Entrepreneurship Development Cell 15.Placements Cell 16.Canteen Committee 17. Institution Innovation Council

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

The college has a registered alumni association and Alumni meets are conducted every year. The college has a healthy and mutually beneficial relationship with its alumni. The college organises alumni meets from time to time to have a continued bonding with alumni and to get their support in student progression. Alumni from across the country and other parts of the world enthusiastically participate in the meet and contribute to the development of the institute in the following ways: Internal Quality Assurance Cell (IQAC) has alumni of the college as members. These members contribute to the improvement of various aspects concerning to the functions of the institution. Alumni members are invited to deliver guest lectures and also as the resource persons for workshops and seminars on recent trends in technology. They also share their professional experience and motivate the students. Alumni members actively participate as judges in various technical and nontechnical competitions organised at the institute. Alumni members provide sponsorship for the National Techno, Cultural, Literary Fest, Borealis, conducted by the college every year. Alumni feedback is taken periodically to understand the curricular gaps and recent market trends. The alumni information is collected and updated continuously by conducting online surveys which collects information on their knowledge, skill level, team spirit, employer appreciations, honors and awards received, current job position, skill updating, experience gained, career track, promotions obtained, future scopes, current trends in industries and valuable suggestion for their juniors. Alumni members intimate the current scenario for placements, expectations from industry and potential job opportunities in the new emerging areas periodically to students through alumni talks. The college Alumni Association has contributed both financially and nonfinancially. Some of the contributions include donation of sports uniforms, dustbins and ladders, books to the library, mass tree plantation, donations for instituting scholarships/awards, coordination in organising State/National level events

5.4.2 – No. of enrolled Alumni:

5.4.3 – Alumni contribution during the year (in Rupees) :

180500

5.4.4 – Meetings/activities organized by Alumni Association :

1. Alumni Meets were organised on 29th July 2018 and on 4th April 2019 2. Three Alumni Talks were organised during the academic year

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The institution practices a culture of decentralised governance and participative management system in many ways as described below: Adequate autonomy to all the departments and sections is provided. Empowering faculty to identify the content beyond syllabus and to organise various technical and cocurricular programmes with the help of members of class committee, teaching and nonteaching faculty of the department. Allocation of budget on the basis of the proposals received from the department. Participation of lab technicians in making budget proposals. Participative management involves Management, Principal, HoD, Faculty, Staff and Students. Heads of the Departments are responsible for overall functioning of the departments, including faculty and student monitoring, classwork and lab work monitoring, and maintenance of department infrastructure. Every financial year, financial budget is prepared by the Director with the help of Heads of the Departments. All the faculty members are involved in planning and successful implementation of the academic and teaching learning processes. Faculty members, students and alumni are members of IQAC and participate in decision making and management through discussions. The Administrative Officer along with the office staff provides the necessary support services for effective functioning of the institute. Students' activities are managed by student council members. Employers are members of governing body and academic council. Participative management as evidenced from the organisation of BOREALIS, a national level techno, cultural, literary and sports fest: Annual Fest, Borealis has been growing over the years and it is now reckoned to be one of the best organised college fests. Borealis is successful because of the way it is organised which is an example of decentralised and participative management. Borealis, is a confluence of many diverse streams like the Technical, Literary, Sports, and Cultural. All the activities are monitored and coordinated by the Students' Activity Committee (SAC). Borealis for the academic year 201819 was held on the 3rd and 4th of April 2019. All departments conducted Paper, Poster, and Model Presentation competitions and Quizzes along with some domain specific competitions. The Literary Club joined hands Literacy Helping Hands and WOW to conduct competitions like Poetry writing, Tweet a Tale, Standup Comedy, Creative Writing, Painting, Sketching, Best out of Waste, Pop Culture Quiz, and A Minute to Win It. Our cultural clubs - Suswara (singing), Nritya (dance), and Photography Club, conducted singing, dance, parody, and personality contests. Kreedaa, our sports club, conducted sports and games competitions for students and faculty. Suswara and Nritya clubs also conducted the cultural programmes displayed during the Grand Finale. The highpoint of Borealis 2019 was the Nightathon, which was coordinated by SAC. Events were scheduled from evening till next morning. Students are given complete freedom to decide on events and their organisation. On the whole, Borealis epitomises our culture of participation and decentralisation.

6.1.2 – Does the institution have a Management Information System (MIS)?

Yes

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Research and Development	The college supports research by way of incentives for publication of research papers in reputed national and international journals. Faculty members are encouraged to enrol for PhD programmes and they are given duty leave for meeting with guides, attending seminars and workshops, and for attending lab sessions if required. Incentives are also given to faculty for motivating students to publish their project reports as research papers. In addition, the college has MoUs with organisations such as Palo Alto, Ram Tech Industries, Oracle Academy, Dell EMC, Amis Engineers, etc., for research collaborations.
Library, ICT and Physical Infrastructure / Instrumentation	The additions and improvements to the college library is an ongoing process. New books are being added regularly and initiatives are taken to enrich the library with new ebooks, e journals, earticles related to subject and curriculum. This year, the library arranged a book exhibition during the annual Library Week. One of the important ICT tools that the college continues to use is EDMODO. We have seen its efficiency and usefulness in the past one year, and the students and teachers both find it very convenient to use. All classrooms are fitted with LCD projectors for presentations, showing demo videos, simulation and animation videos. These facilities are being used regularly further enhancing the teaching learning experience.
Human Resource Management	On the basis of a transparent performance appraisal system, where teachers are evaluated on the basis of teaching, acquiring higher qualifications, publications, research, and participation in development activities, they are given promotions, increments and other facilities and are given Teaching Excellence and Outstanding Achievement awards during Teachers' Day celebrations every year. The other welfare measures aimed

towards all the staff members come under the ambit of medical, financial, women's and children's welfare measures, retention and relocation allowance, and concessional transport facility. Faculty members can also avail increments for publications, book allowance, seminar grants, research allowance, and free SIM for mobile phones.

Admission of Students

The college follows an admission policy that is extremely student friendly. Some of the features of this policy include a transparent admission process and providing freeships and scholarships to meritorious students. We conduct an Education Fair to provide guidance and a Mock EAMCET exam to help intermediate students. Our college organises science expos to instil scientific and technical aptitude in the intermediate students to make them realise the interdependence of science, technology and society. Students who participate in the expo are taken on a campus tour to create interest in institution for pursuing engineering. The monthly newsletter of our college Aurora Bulletin' gives information on all the events conducted on campus and is available online for all stakeholders. There are wonderful opportunities in our college for students with community service orientations who can join NSS, ARITRI, Street Cause, and Literacy Helping Hands.

Curriculum Development

Though the University prepares the syllabus and updates it regularly, the college in addition conducts Bridge Courses and ValueAdded Courses for students to bridge the gap between academic knowledge and industry expectations. Therefore, industry professionals are called to deliver expert sessions to create awareness among students. Whenever required, industry experienced hands are also hired to engage lab sessions. Workshops and training sessions on latest software and hardware beyond the curriculum requirements are organized. Also, students are encouraged to have internships with industries. Faculty members are deputed to quality improvement programmes and FDPs conducted both inhouse and by JNTUH,

IITs/NITs, and national/state recognized universities and institutes.

Teaching and Learning

The Interactive Teaching Learning Methodology (ITLM) was designed as a blended learning approach, where face-to-face interaction is mixed with independent study. Learning is made interesting through various collaborative methods like case studies, group discussions, debates, quizzes, student seminars, and roleplay. These methods inculcate motivation, communication skills, knowledge sharing, team spirit, freedom of expression and employability skills in students. The regular participation of students in these methods has resulted in improvement in communication skills which has resulted in many of them already securing placements. Through the ITLM we have seen an improvement in pass percentages and more enthusiastic and motivated participation in placement drives.

Examination and Evaluation

The college follows the examination schedule and rules and evaluation procedures mandated by JNTUH. Apart from that, since the last two semesters, Mid Exam question papers are framed according to the Bloom's Taxonomy and Outcome-based learning in which course outcomes are attained. Bloom's Taxonomy, the new model introduced by the institution, is a tool to help develop cognitive skills such as remembering, understanding, applying, analysing, evaluating and creating and these will be tested as part of the new model. In this method, question papers will be framed in such a manner that students will be forced to think, analyse and demonstrate in order to come up with optimal solutions by themselves without relying on rote learning.

Industry Interaction / Collaboration

The college has an Industry Institute Interaction Cell (III), a Career Guidance Cell, and a Placement Cell to take care of relations between our college and the Industry in different ways. Through the III Cell this year, we were able to promote closer linkages and research and consultancy networks with quite a few firms. The cell used its networks with industry to provide internships for students. It hopes to enable appointments of experienced

industry resource persons as visiting faculty in the near future. The Cell also helps to establish MOUs and agreements with various industrial and research organisations in different fields and sectors. The Placement Cell has been active and provides yet another avenue for industry institution interaction, through its regular placement drives, interactions with industry representatives, and training programmes.

6.4.3 – Total corpus fund generated

3250000

6.5 – Internal Quality Assurance System

6.5.1 – Whether Academic and Administrative Audit (AAA) has been done?

Audit Type	External		Internal	
	Yes/No	Agency	Yes/No	Authority
Academic	Yes	JNTUH	Yes	Dean Academics
Administrative	Yes	Aurora Educational Society	Yes	Assistant Registrar

6.5.2 – Activities and support from the Parent – Teacher Association (at least three)

1. Sponsorship from parents in the organisation of Borealis, a National Level Techno, Cultural and Literary Fest 2. Referrals from parents for placements 3. Parentteacher meetings for understanding of student performance and feedback 4. Participation of parents holding leadership positions as guests in Annual Day, Mini Convocation, and Placement Day Celebrations.

6.5.3 – Development programmes for support staff (at least three)

1. Organised Fire Safety Awareness Programme for Support Staff in collaboration with the Fire Department, Telangana 2. Organised Communication Skills Development Programme in association with the department of English 3. Organised Hospitality Management Programme in association with the department of Management

6.5.4 – Post Accreditation initiative(s) (mention at least three)

1. Established Institution Innovation Council (IIC) 2. Established Internet of Things (IoT) Laboratory 3. Implemented Management Information System, Gibbon 4. Implemented Blooms Taxonomy as a part of Examination Reforms

6.5.5 – Internal Quality Assurance System Details

a) Submission of Data for AISHE portal	Yes
b) Participation in NIRF	Yes
c) ISO certification	No
d) NBA or any other quality audit	No

7.1.7 – Initiatives taken by the institution to make the campus eco-friendly (at least five)

1. Organised tree plantation drives as part of Haritha Haram programme 2.

Promoted plastic free campus initiative among students, faculty and staff 3. Reached MoU with ITC WoW for waste management 4. Established Rain Water Harvesting Pits 5. Promoted paperless office management

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

BEST PRACTICE 1 Title of the Practice NPTEL SWAYAM MOOCS Online Certification Courses

1.Objectives of the Practice

- To enable faculty gain advanced technological and subject knowledge through video lectures prepared by IITs and IISc and IIMs
- To encourage faculty to learn to design value added courses on the lines of these courses.
- To capacitate faculty members to adorn the role of mentors for some nptel courses
- To facilitate integration of reading materials and videos to complement classroom teaching.
- To promote continuous professional development through selflearning and lifelong learning
- To encourage faculty to review and translate courses offered by nptel.
- To impart life skills, develop the personality and communication skills.
- To enable the faculty to acquire teaching skills through effective pedagogic methodology.
- To enhance networking opportunities.

2.The Context NPTEL offers free open online courses along with certification in various engineering disciplines, sciences, humanities, management and research which provide relevant exposure to tools and technologies. This facilitates flexibility for the faculty to prioritize the time and work at one's own pace. In order to gain indepth knowledge and mastery learning of various components of the curriculum, the faculty can opt for courses from the same or inter disciplinary courses. In the light of ever changing world of knowledge and technology unless faculty members update themselves they become out dated. Teacher as a facilitator should also guide the students in online learning programmes. The modular structure of these courses is learner friendly and enables participants to move smoothly along the spiral of learning. AICTE recognizes advanced level NPTEL courses as Faculty Development Programs for Engineering Colleges due to limited opportunities available for faculty to attend facetoface or residential fulltime training programs.

3. The Practice Aurora's Technological and Research Institute had setup NPTEL Local Chapter on June 30, 2017 with an objective to enable the faculty and students to obtain certificates through enhanced technological learning. Dr. K. Nagajyothi, Professor, Department of Chemistry started the Local chapter and participated in the SPOC workshop held at IITMadras on 15th July 2017. Later Ms. D. Subahshini, Assoc. Professor, CSE took the charge. The faculty members and students were briefed about the NPTEL courses and motivated to enrol for the courses. The faculty members had the choice to select the course of their own interest, either related to their course or in new domain. Many faculty members enrolled in various courses pertaining to Engineering, Technology, Science, Management, Humanities and interdisciplinary. The subjects like computer programming and soft skills were opted by the faculty of different streams to upgrade their knowledge and evaluate themselves through weekly assignments. The faculty members utilised the video lectures and contents of NPTEL courses as an additional material for teaching the students. The digital library has been equipped with NPTEL online videos for the easy accessibility to the students and faculty through LAN. 20 faculty members appeared for the final NPTEL exam and few of them have written exams for two courses on the same day.

4.Obstacles faced/Problems encountered:
The regular course work of the college is conducted from June to November December to April and the NPTEL courses are offered from July to October and January to April every year. Due to the coincidence in the course period it becomes hectic for the faculty to cope up with both the regular and NPTEL course work. In spite of these barriers faculty have achieved credit as the toppers with gold and elite certification.

5. Impact of the Practice/Evidence of Success Many of our faculty members have excelled in the NPTEL examinations

for the course July 2018 April 2019 6. Resources required: The Computers and WiFi facility were readily available for the members enrolled in NPTEL courses. The digital library was easily accessible coupled with LAN connection. In view of the limitations of the faculty members, if most of the courses offered by NPTEL are considered equivalent to FDP it will motivate many faculty members to pursue more number of courses. Feedback collected from the participants can be more comprehensive in nature. BEST PRACTICE 2 Title of the Practice COMMUNITY ENGAGEMENT 1 . Objectives of the Practice • Establish and maintain sustainable cooperative partnerships with community by adopting schools and villages • Improve quality of life and empowerment of the community concerned • Develop a sense of civic and social responsibility • Enhance awareness about current social issues • Utilise their knowledge in finding practical solutions to community problems • Develop competence required for group living and sharing of responsibilities • Help gain skills in mobilising community participation • Strive to bring consistent changes in the lives of the underprivileged • Create awareness on environmental issues. • Promote literacy, skill enhancement and encourage innovation and entrepreneurship among students 2. The Context Engineering students have the responsibility to design solutions and solve problems and positively impact people's lives. Unfortunately, traditional engineering training does not prepare students to engage with the people in the community where they may work. This creates an engagement gap between the skills of engineers and their ability to communicate with a community to solve problems. To decrease this engagement gap, many programmes are initiated by the NSS, LHH and Street Cause units of our college. The main aim is to inculcate a sense of social service in the Engineering students. These programmes help them understand the challenges in the society by looking beyond the technology and empowering the community in the local area to render their services. The sense of empathy is also developed in the students so that they can continue this dedicated service throughout their career. 3. The Practice Coordinators of the NSS, Street Cause and LHH units enrol volunteers at the beginning of the academic year. They conduct meetings and prepare a calendar of activities for the academic year. Updates are posted on the college website as scrolling. After conducting every event activity reports are published in the news letter. The photographs of all these events are uploaded on the college Facebook and Instagram pages. 4. Obstacles faced/Problems encountered: No obstacles faced as we are able to run NSS Unit, Street Cause LHH success fully by conducting many events throughout the year. 5. Impact of the Practice/Evidence of Success NSS Activities • Participated in the Inter State Youth Exchange Programme, 2 July 2018 • Haritha Haram Programme conducted on 26/7/2018 in Parvathaur village, Uppal. 200 volunteers from ATRI participated and 400 saplings were planted • Distributed pens and 300 note books at Parvathapur adopted Govt. School, • Independence Day Celebrations at Govt School, 15 Aug 2018 • NSS Volunteers participated in National Integration Camp, 26 Aug 1 sept 2018 • Swachh Bharat - Arogya Bharat programme conducted on 02 Oct 2018 • ATRI NSS unit participated in NSS day celebrations in UGC Auditorium, JNTUH campus on 24 oct 2018 • The Grace Cancer Foundation, Hyderabad in association with Aurora Consortium, Chikadapally organized the Cancer Run 2018 on 7/10/2018 at Peoples Plaza, Necklace road • Eye and Dental Camp, 30 Oct 2019 • ISKCON Run ATRI NSS unit, 04 Feb 2019 • NSS SPECIAL CAMP, 2228 Feb 2019 STREET CAUSE EVENTS: • Blanket Donation Drive, 05 Jan 2019 at Niloufer Hospital and Lower Tankbund • Medical camp for free health checkup at Rayaraopet village on 24 Feb 2019 • Support govt school donate benches, water filters, black board and stationery items • Visit to the Old Age Home and Orphanage: The volunteers and students visited old age home and orphanage and distributed fruits, clothes and tablets for the old people LHH Activities • Startup talks - 27thfeb 2018, 100 participants • Ideathon, 14 March 2018, 11 participants • Innovatives Challenge, 7 April 2018, 45 participants 6. Resources Required: • NSS Cell office to conduct meetings and discussions • Computer system, Internet facility, Printer, LCD Projector

and UPS • One DTP operator and stationery • Department wise coordinators and Student Coordinators to organise the events • A Good Camera to capture pictures/visuals of all the events • A Notice board to display posters and circulars • A vehicle for transport • Support from Admin office for maintenance of resources • Tools for field work, tents and furniture

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

INTERACTIVE TEACHING LEARNING METHODOLOGY (ITLM) GOAL This innovative methodology was designed on the 'flipped classrooms,' concept, a blended learning approach, where face to face interaction is mixed with independent study. The main goal would be to make learning interesting through increased interaction using various collaborative methods like case studies, group discussions, debates, quizzes, student seminars, and role play. Through these methods, high motivation, communication skills, knowledge sharing, team spirit, freedom of expression and employability skills are inculcated in the students.

IMPLEMENTATION Students are divided into learning groups. A class of 60 will have 20 learning groups with 3 students in each group. Each group has one advanced learner, one satisfactory learner, and one slow learner. Objectives, guidelines and parameters for evaluation are communicated to the students. Performance of students is evaluated individually.

1. **Case Studies** Students are engaged in figuring out principles by abstracting from the case study examples. This develops their skills in problem solving, analytical thinking, decision making in complex situations, and coping with ambiguities.

2. **Group Discussions** Students share experiences, ideas and attitudes which foster the involvement in what they are learning. Discussion helps in relating relevant personal experiences, contributing ideas or opinions, solving problems, and expressing what had been learned.

3. **Debates** Debate helps learners to see the power of deploying rational, reasoned arguments and compelling evidence in action. The advantages include, gaining broad, multifaceted knowledge cutting across several disciplines outside the learners normal academic subjects, increasing learners' confidence, poise, and self-esteem, improving rigorous higher order and critical thinking skills, and enhancing the ability to structure and organise thoughts.

4. **Quizzes** Quizzes help teachers assess the effectiveness of their instruction, as well as understanding of the concepts. Quizzes are used to motivate students to learn, to help them remember content just covered, and to help assess what they learned.

5. **Student Seminars** Seminar reinforces the concepts and help them to get more information on the seminar topic. Seminars help in enhancing practical implementation of a topic, writing and communication skills, and research and presentation skills.

6. **Role Play** Participants use their own experiences to play a real life situation. They increase the participant's self confidence and usually end with practical answers, solutions or guidelines. Role play helps in improving interviewing techniques, observation skills, and imagination and application of knowledge.

RESULTS and EVIDENCE OF SUCCESS The institution had two targets - results and placements. The performance of the students in academics has improved gradually semester after semester due to the implementation of these methodologies. The students of the 201617 batch are now in the fourth year and are actively participating in Campus Recruitment Drives. Their regular participation in debates, seminars, group discussions, role play, etc., have resulted in these students sharpening their communication skills and their increased confidence levels can be seen in their performances during the initial recruitment drives.

8.Future Plans of Actions for Next Academic Year

CURRICULAR ASPECTS: To encourage students to take up value added courses through MOOCs. To encourage more number of students to enrol for summer internships. To strength NPTEL local chapter by encouraging more number of students and faculty to register for online certification courses and complete successfully to be among the top 100 local chapters. **TEACHING LEARNING AND EVALUATION:** To establish revised and concrete mechanisms for evaluating the attainment of course outcomes, programme outcomes and programme educational objectives. **RESEARCH, INNOVATIONS AND EXTENSION:** To improve research publications by encouraging faculty and students to publish their project works in reputed national and international journals. To increase budget allocation for research and development activities by at least 25 percent. To organise a national conference in order to enhance research culture on campus. To reach MoUs with industries for improving industry institute interaction activities. **INFRASTRUCTURE AND LEARNING RESOURCES:** To increase the use of LEDs to at least 25 percent in order to reduce power consumption. To dedicate 100 Sq m space on campus to the members of alumni for setting up startups. To setup e content development facility for recording video lectures. **STUDENT SUPPORT AND PROGRESSION:** To encourage more number of students to participate in national/international level sports/cultural activities. **GOVERNANCE, LEADERSHIP AND MANAGEMENT:** To apply for inclusion of institution under UGC Section 2F and 12B. To apply for autonomous status. **INSTITUTIONAL VALUES AND BEST PRACTICES:** To apply for an additional NSS unit in order to involve more number of students in community engagement activities.
